PROFILE

I am an iOS developer seeking a freelance position in the field of iOS mobile application development and website development, where I can apply my knowledge and skills for continuous improvement.

SKILLS

- iOS Development
- Augmented Reality (AR)
- Machine Learning
- 3-D Object Animation
- Swift & Swift-UI
- HTML/CSS
- Web Development
- Editing (iMovies)

PROJECTS

BLOOD SPOT

FINAL YEAR PROJECT

- Blood spot is an online blood/ plasma donation website that was developed by me and my teammates as our final year project.
- I guided my team as a leader and decided the content of the project. I managed all the paperwork such as presentations and reports.

MOBILE APPLICATION DEVELOPMENT

IOS MOBILE APPLICATIONS

- Developed iOS applications that are based on Swift/ Swift-UI programming languages, Augmented Reality (AR), Machine Learning (ML).

WEB DEVELOPMENT

PORTFOLIO WEBSITE

- Developed a portfolio website for freelance projects on freelancers.
